Hi Fatima,

Thanks for reaching out about our laptop stand. It's great that you're checking the product details before making your purchase.

7. What This Library Demonstrates

The same **Role + Context + Task + Format + Constraints** structure was reused five times.

Only the variables changed:

Test	Customer Situation	Main Goal
1	Delayed order	Explain delay
2	Refund request	Explain return process
3	Damaged product	Handle replacement
4	Login problem	Provide reset instructions
5	Product question	Provide accurate information

This demonstrates how a single reusable prompt can replace repeatedly writing customer-service prompts from scratch.
